Announcement:

Korea – Spain Call for Proposals for Joint R&D Projects
Deadlines for Submission – 28th March 2018 (call 2018-1), 31st August 2018 (call 2018-2)

Scope

Korea and Spain are announcing the Call for Proposals for joint R&D projects, focusing on developing innovative products and applications in all technological and application areas. Applicants are expected to develop ready to market solutions or projects which have strong market potential for Korea and Spain.

- ★ KIAT (Korea Institute for Advancement of Technology) and CDTI-EPE (Centre for the Development of Industrial Technology, E.P.E.) will provide access to public funding for joint projects. Support shall be granted to each partner by its own Authorities, in accordance with existing laws, rules, regulations and national procedures, on the basis of non-exchange of funds between those Authorities and subject to budgetary availability
- ★ The call is announced within the framework of the bilateral Cooperation Agreement on Industrial Cooperation between KIAT and CDTI-EPE. The call is managed in cooperation and in line with the procedures of EUREKA Programme (www.eurekanetwork.org).

THEMES

SMART MOBILITY	SMART HEALTH	SMART ENERGY	SMART INDUSTRY
----------------	--------------	--------------	----------------

SMART MOBILITY

The world of mobility is changing fast. Urbanisation has left cities struggling with congestion and air pollution. Europe seeks to lead urban transformation towards liveable and car-free cities. Servitisation, electrification and automation of vehicles and vessels is remodelling mobility and the transport of goods. European IT enterprises are also essential to the development of the mobility and transport industry. How will our mobility change in 10 or 20 years?
