STRATEGIC PLAN

WORK PROGRAMME

PROJECT PROPOSALS

Application process (researchers)

EU POLICY PRIORITIES	Overall priorities of the European Union (Green Deal, Fit for the Digital Age,...)
KEY STRATEGIC ORIENTATIONS	Set of strategic objectives within the EC policy priorities where R&I investments are expected to make a difference
IMPACT AREAS	Group of expected impacts highlighting the most important transformation to be fostered through R&I
EXPECTED IMPACTS = DESTINATIONS	Wider long term effects on society (including the environment), the economy and science , enabled by the outcomes of R&I investments (long term). It refers to the specific contribution of the project to the work programme expected impacts described in the destination. Impacts generally occur some time after the end of the project.
EXPECTED OUTCOMES = TOPICS	The expected effects, over the medium term , of projects supported under a given topic. The results of a project should contribute to these outcomes, fostered in particular by the dissemination and exploitation measures. This may include the uptake, diffusion, deployment, and/or use of the project's results by direct target groups. Outcomes generally occur during or shortly after the end of the project.
PROJECT RESULTS	What is generated during the project implementation. This may include, for example, know-how, innovative solutions, algorithms, proof of feasibility, new business models, policy recommendations, guidelines, prototypes, demonstrators, databases and datasets, trained researchers, new infrastructures, networks, etc. Most project results (inventions, scientific works, etc.) are 'Intellectual Property', which may, if appropriate, be protected by formal 'Intellectual Property Rights'

In-Kind Contribution (IKC) to the Programme

- Members vs. Non-Members
- Two types of IKC:
 - IKC to operation activities (IKOP)
 - IKC to additional activities (IKAA)
- Required min. level of in-kind contributions: 1.5 times the funding request in aggregate for the proposal

Ref. Art. 61 of the Council Regulation (EU)
[2021/2085](#)

The proposal should include:

- a description of the IKC provided by the Members (IKOP + IKAA) and the non-Members (at the stage of the proposal submission) who clearly express the ambition to become a member before project end;
- include a list the actions implemented and envisaged to ensure an adequate level of IKC as defined in the topic as well as to demonstrate their reliability and associated risks.

Admissibility

- Proposals to be submitted via Commission Funding & Tenders
- CAJU WP - Conditions and management of the calls
 - The limit for a full application is **120 pages**
 - ↳ 'Coordination and support' actions (CSA) → Limit 30 pages

Eligibility conditions applying to the 1st call:

- At least 1 independent legal entity established in a Member State (MS), and
- 2 other independent legal entities each established in a different MS or in an Associated Country (AC).
- CSA: submitted by 1 or more legal entities, established in a MS, AC or 3rd country (exceptional cases)
- When duly justified in CAJU WP → A single legal entity established in a MS, AC or Consortia not meeting the conditions under Article 22(2) of the HE Regulation shall be eligible.
 - ~~not applicable to the 1st CAJU call (I)~~

Specific condition → Legal Entities established in Russia, Belarus or in any occupied territory of Ukraine are not eligible to participate in any capacity

Open calls

- Consortia may be composed by CAJU private members and non-members
- The same applies to the Model Grant Agreement (MGA) – private members and other participants (non-members) will be part of the same action and grant agreement
